

Statement by GPUS NWC Regarding Detention of Minors in Palestine: Ahed Tamimi

Recent news of Ahed Tamimi, a 16 year old Palestinian woman who in December was interrogated by Israeli military officials, tortured and threatened with rape for slapping an Israeli soldier, highlights the need to recognize that massive detentions and violent interrogations of minors are horrific violations of human rights and international law, and need to end.

The National Women's Caucus of the Green Party of the U.S. calls on Congress to pass HR 4391, submitted by Congresswoman Betty McCollum, "Promoting Human Rights by Ending Israeli Military Detention of Palestinian Children Act." The bill addresses unlawful detention of minors and promotes human rights for Palestinian children by ending abusive Israeli military detention practices. The legislation also prevents/would also prevent the use of United States tax dollars for the Israeli military's ongoing detention and mistreatment of Palestinian children.

Diane Moxely, a member of the National Women's Caucus, recounted her experience from a recent visit to Palestine: "I met the family when I was in Palestine in October. This family has been put through hell, their home has been raided over 200 times in the past six years. The recent incident with Ahed occurred shortly after her 14 year old cousin was shot in the face with a rubber bullet requiring surgery as the bullet lodged in his skull, and another raid of their home, which included tear gas canisters being thrown at windows. We heard stories of many injuries to protesters, at least 2 deaths, detentions and violent interrogations of minors, adults are held administratively sometimes for years with no hearings."

LuAnne Kozma, also a caucus member, states that "the Green Party stands unequivocally opposed to torture and rape. Given the current publicity about sexual predation being raised by the #MeToo campaign, it is an outrage that any remotely professional journalist could write, referring to the detention of women and girls: "In the case of the girls, we should exact a price at some other opportunity, in the dark, without witnesses and cameras." (Ben Caspit, *Maariv*, quoted in Associated Press and CBS News (<https://www.cbsnews.com/news/palestinian-teen-ahed-tamimi-prosecuted-israel-attack-soldiers-nebi-saleh/>))

Jacqui Deveneau, Chair of the Maine Green Party's Women's Caucus, responded to the implication from some international media reports that activists such as Ahed Tamimi and Malala Yousafzai (Nobel-Prize Winning Activist in Afghanistan) are somehow in competition for support and media attention: "That belittles both of the courageous young women. They both have their own stories that need to be covered in full by all media. As Women, we advocate support and cooperation, not competition."

Defense for Children International-Palestine, a local group, said 331 Palestinians under the age of 18 were held in military detention as of May, according to the most recent statistics released by Israeli authorities. It said that in 2016, an average of 375 minors were in detention each month. (<https://www.cbsnews.com/news/palestinian-teen-ahed-tamimi-prosecuted-israel-attack-soldiers-nebi-saleh/>)

Some suggestions: Include some links to articles about Ahed, have the quote

from Diane about meeting her -- make it a little personal.

I can fill in basic expository stuff about the party's position on Israel/Palestine at the end if you want.

Here is a not-formatted draft, which I hope is near completion. There are a couple items to fill in regarding ho to designate caucus members given quotes. If notign else, I think we can go with the moniker "caucus member" -

Please suggest needed edits for style (yes, run-on sentences, I know I know) and anything that is unnecessary and could be deleted.

LuAnne, is the quote I gave you ok? It sounds to me like something you'd say!

Jacqui supplied most of her own quote; is the rest ok? Is this item related enough to the gist of the statement to leave in, or would it be better to delete that?
